SPEAKER |

Stefano Lombardo, DDS

Stefano Lombardo, DDS, graduated as dental technician in 1992, received his dental degree with honors in 1997 at the University of Torino, Italy. Adjunct Professor for ten years in Restorative Dentistry and Fixed Partial Denture for the at University of Torino as well as University of Genova for three years. Dr. Lombardo is an accomplished author in several publications in the Italian and International journals as well as a lecturer in numerous courses and conferences. He is co-author of several Italian textbooks on Prosthetic Rehabilitation and Clinical Dental Medicine. In his private practice in Torino (Italy), Dr. Lombardo focuses on restorative dentistry, fixed prosthodontics and implant-prosthodontics with particular attention to aesthetics and new technologies.

ABSTRACT |

Each implant-prosthetic rehabilitation requires important decisions to achieve long-term success. From the choice of the fixture to its ideal positioning and to the different kind of surgical approaches to the prosthetic development of peri-implant soft tissues. Whether cemented or screw-retained prosthetics to choosing the most suitable prosthetic material. To the choice of the dental technician processing method and the developments of modern CAD-CAM protocols.

SCIENTIFIC PROGRAM |

- Interdisciplinary Therapy
- Fixed prosthesis on implants: cemented vs screw-retained
- Number and position of fixtures: prosthetic-guided vs bone-guided
- Principles for Design of Customized Abutments
- Tilted Implants and Disparallel Screwed Prosthesis with P.A.D. systematics
- Choice of prosthetic material: monolithic restorations or laminated
- Prosthetic Modeling of Peri-Implant Soft Tissues
- CAD-CAM Designed Restorations
- Digital workflow as a service for clinicians, technicians, and patients

PROGRAM |

Venue

Morton's The Steakhouse
Boca Center, 5050 Town Center Cir #219
Boca Raton, FL 33486

Program
